

**GOOD RICH KIMYA**

## **ARYAKEM 450 T-X-65**

Short\_oil,alkyd resin based on soya special fatty acid

### **SPECIAL PROPERTIES:**

Exhibit very good durability and high gloss coupled with short air drying time.

### **SPECIFICATION:**

Solids content	64-66
Viscosity stokes(400-500)	65%
Acid Value	6-10
Density g/cm <sup>3</sup>	1,03±0,02
Color (Gardner)	Max 6
Gardener holdt	Z5-Z6
Oil length	28%
solvent	To/XY

### **SOLUBILITY:**

White spirit	complete
Xylene	complete
N-Butyl Acetate	complete
MEK	complete
N-Butanol	complete

### **SUGGESTED USES:**

Recommended for fat drying hammer finishes and air drying top coat as well as radiator and industrial machinery paints.

### **STORAGE AND PACKING:**

In drums of 200 kg In a cool and dry place (0-30°C) original containers.

**COMPOSITION:** Oil Approx. 32% Phthalic Anhydride Approx. 42% Type of oil special fatty acid.
